SUMMARY

Gabriel Clemente Ramos is a skilled Full-Stack Software Engineer with extensive experience in developing robust web applications that enhance user wellness and business operations. Specializing in JavaScript technologies, Gabriel expertly utilizes Express.js, Node.js, and React.js to build and scale applications. His work at Beyondbmi and GABO highlights his proficiency in creating data-driven solutions for wellness platforms and small business product development. Gabriel's commitment to continuous learning is evidenced by certifications in React Native, SOLID principles, and cybersecurity, and by his education in full-stack web development from CEU Cardenal Herrera University and ongoing studies in Computer Science at the University of the People. Fluent in multiple languages and proficient in Clean Code practices and DevOps, Gabriel is passionate about leveraging technology to solve real-world problems, with a portfolio that demonstrates innovative, user-friendly solutions.

EXPERIENCE

Full Stack Engineer

11/2022 - Present

Beyondbmi ↗

As a Full-Stack Software Engineer with expertise in JavaScript, I spearheaded the development of an advanced online weight loss clinic platform, leveraging Angular and Bootstrap for intuitive front-end design and Express with TypeORM on the backend to ensure operational consistency and reliability. Employing TypeScript across the full development stack, I ensured high-quality code standards and system robustness.

Key achievements include the implementation of HIPAA-compliant encryption protocols to protect patient data, showcasing my commitment to security and privacy. I broadened the platform's functionality by creating an Android app using React Native and Metro, significantly improving the mobile user experience. Furthermore, I was instrumental in deploying AWS Lambda functions and integrating AWS Cognito for enhanced authentication security. This role underscored my comprehensive skills in full-stack development, my ability to navigate complex regulatory environments, and my proficiency in cloud-based solution scalability.

Software Engineer

11/2022 - Present

GABO ↗

In my role as a Full-Stack Software Engineer, I've successfully collaborated on a wide range of projects, tailoring web solutions for e-commerce platforms, corporate sites, and small business online interfaces, with a proven track record of fostering long-term client relationships through repeat engagements. My expertise extends across developing highly visible and engaging websites, with a strong emphasis on Search Engine Optimization (SEO) to maximize online presence and user engagement.

My technical proficiency encompasses building from scratch and enhancing existing sites using leading JavaScript frameworks, WordPress, and PHP, among other web development tools. This diverse project experience has honed a versatile skill set, enabling me to offer custom-tailored, SEO-optimized web solutions that meet specific client requirements and business goals, thereby reinforcing my capacity to tackle and excel in full-stack web development challenges.

User Interface Engineer

07/2022 - 07/2022

talenTeal ↗

As a Full-Stack Software Engineer, I spearheaded the complete redesign of our company's landing page, with a strategic focus on optimizing User Experience (UX) and User Interface (UI). My goal was to enhance site intuitiveness and navigation, significantly improving accessibility and comprehension for a diverse user base. This project successfully elevated our online presence, resulting in a more engaging, user-friendly website that reflects our dedication to digital excellence and customer satisfaction.

Technical Support Engineer

02/2022 - 03/2022

Lujo Network ↗

In my capacity as a Full-Stack Software Engineer, I significantly bolstered our company's digital security framework, leading the deployment of advanced firewall solutions and the establishment of comprehensive backup systems to ensure data integrity and resilience. I spearheaded training sessions on best security practices, enhancing the team's capability to maintain a fortified digital infrastructure.

My responsibilities further encompassed the management of database systems, overseeing their design, development, and secure data migration processes. Additionally, I was instrumental in the enhancement of our website, utilizing my extensive full-stack development skills to upgrade various website components, thereby strengthening our online visibility and functionality.

EDUCATION

Network and Application Security

04/2024 - Present

University of People - Computer Science

DevOps

09/2022 - 09/2022

Charles Sturt University - College Diploma

Program of Advanced Bootcamp Education, Full-Stack Web Development

04/2022 - 07/2022

CEU Cardinal Herrera University - College Diploma

Full-Stack Web Development

11/2021 - 01/2022

The App Brewery - Bootcamp

Cybersecurity Management

07/2021 - 07/2021

Charles Sturt University - College Diploma
